10th of month preceeding date of issue.

### Cuts:

Cut of single dog, \$4.00.

Cut of group of dogs, \$8.00.

Send sharp print, any size, black and white (preferred) or color. Prints cannot be returned. Cuts will be reused at the discretion of the Editor, free of charge. Policy: to try and use pix of each dog once during a trial season. No retouched photos will be published.

### Subscriptions:

Magazine sent to members only.

### Field Trial Reports:

Published in order received, two pages maximum. Trial results received without write-ups held for "Delayed Chase" published at the end of trial season. If no results received winners will be listed—no breeding or handler's names.

### New Champions:

Confirmation of new champions, obedience degree holders and group winners is taken directly from the Purebred Dogs (official AKC publication). Do not notify us that your dog has finished unless his name is not published at the end of five months. It takes this long for official confirmation to reach the pages of the American Brittany. Show results are sent in by owners. Only major wins will be published and BB, BOS, BW, WD and WB must be given.

### Show Case:

Show Case is the place to display your top winner, either field or bench. Cost is \$10 if we do not have a cut of your dog on file, \$6 if we do. All dogs completing their Dual Championships will be featured free of charge.

### Change of Address:

Notice of change of address must be received one month before date of issue giving both old and new address. Otherwise delivery cannot be guaranteed.

### Material:

Specially written articles (as contributions) are desired as well as photos suitable for covers. No articles or photos will be returned unless accompanied by return postage. Material and format controlled by the Editor, subject to approval of the Magazine Committee, John W. Lee, Nolen Cathey and Dan Buster.

### Remember:

We cannot publish what we don't know so be sure and send items of general interest.

# THE CASE FOR THE CLASSIC

by Rand Constalie

Gentlemen of the Jury:

You are charged with the duty of finding the very best Brittanies in the country to be used as foundation stock for improvement of the breed.

We will show beyond any reasonable doubt that the ABC Prairie Chicken Classic is one of the very best places in America to accomplish this. Two experts, highly skilled and knowledgeable arbiters of canine performance will examine facts and take testimony for this very purpose on the famed 10,000 acre Buena Vista Prairie Chicken Management Area near Stevens Point and Wisconsin Rapids in Central Wisconsin. We submit that this area is nearly ideal for the purpose of this kind of proceedings.

At this time we would like to place in evidence a map of the Area which is marked exhibit "A." Please let the record show that the areas so marked show the lands which comprise the Prairie Chicken Management Area. We direct your attention to the fact that this is flat grassland with some woods border but mostly very lightly interspersed with scattered small individual trees or shrubs and some feed plantings of oats, buckwheat or corn.

We would like to point out that under these conditions a dog can be seen for great distances.

It is also a fact that the Prairie Chicken population is a matter of record available to any interested citizen from the Department of Natural Resources, and further, that this information will show an increase in the number of birds present on the area at mating time this year.

It is also a matter of public record that weather conditions in Wisconsin this year have been the most favorable for the birds in many, many years.

We will show that these grounds are a real test for a bird dog; the very spaciousness of the area being an invitation to a dog to run; however, there are so many distant inviting places for him to go that if he does not choose his objectives wisely he is going to find

himself out of gas with still a long ways to go.

We are certain that you are aware that loud and sometimes eloquent pleas will at times be made by some of the handlers on behalf of their canine charges. We can assure you, gentlemen, that this will not enhance the chances of the competitors; indeed there is an excellent chance the birds will take offense at such unseemly behavior and depart hastily and indignantly without granting the offender an opportunity to apologize.

Should this occur it could completely spoil a dog's chance to exhibit the sterling qualities a good Prairie Chicken Dog should possess, to-wit: That he point staunchly from a respectable distance, the distance being a matter the dog is capable of determining by himself, but being such as not to put the birds to flight but withall indicating their location to the handler.

In summary the demands of the grounds and game are as follows: The dog must have stamina and heart to search the large expanse of country, any of which may hold his quarry. He must have a superb nose so that he may take his country out in goodly sized chunks, still detecting the presence of birds. He must have the intelligence so that he will cover the ground in a manner requiring the least physical effort on his part so that he may conserve his energy for the long grind which he faces. Above all he must have the ability to properly handle truly wild birds. Usually this requires skill, knowledge and finess on the part of the dog.

Finally the dog must be fully trained. He should handle with minimum of noise, yet run ambitiously without vocal urging. He should show independence in selecting his objectives but should respond to his handler's directions willingly.

Gentlemen, this is what is known as class. This is what the judiciary will be seeking. This is the type of dog you should be glorifying.

# ★ FOR LADIES ONLY ★

by Carol Brown

So—your husband works on Saturday morn and plays a short 18 holes on Saturday afternoon or Sunday after church. He might watch TV in the evenings or even play cards with the fellas. Maybe he carries out the garbage and can't wait for the Monday-Night-At-The-Movies or a pro sport special. He might even be a Dallas Cowboy fan. Good luck. He's ecstatically content. All he requires from the little wife and kiddies is smiling faces, meals on time, baths at 8—and he's ready for his 40 winks before that hard day at the office.

On—a June afternoon, you're having a bit of a birthday party for the last little dividends (a blessed set of twins), and here come your man. The car door opens and out lopes an orange and white apparition. Feet as large as a bathroom mat and a sign around his neck says like, "I need a bath, a lot of love, and my name is Rambler." Rambler? Open the arms of the little twin boy, opens the mouth of the unsuspecting mother, and the little fellow says, "Charlie, you've come to live with me!" And, Charlie Boy II was ALL ours.

Some—time later, these friends of ours want to take this dog to a field trial. What, drive to Oklahoma to run a dog in a WHAT? Now, these friends (?) of ours just happened to have made this breeding, and they kept talking about running "wide." Well, even I know that, when he maneuvered the house in three or four strides (and lifted his leg on the half beat)! This week-end was to be the beginning of the end!

At—this point, a bird dog was rather exciting, but with four young children at home, the seed of the field trial just hadn't sprouted. While the man and I were dancing to the beat of romantic music, a trophy was delivered to our door. Now, a romantic evening is something else until you see the gleam in the man's eye when he views that first trophy.

Alone—on the week-ends with the children and the TV just wasn't my idea of married life. At times, I would ask myself, "Why does everyone love Char-

lie when I don't even like him?" And, true to a field trialer-to-be's wife, I would answer myself — because, the head of the house had discovered THE FIELD TRIAL. Up to this time, in life's little drama, a drive to Dallas was a big adventure. "Think of the babysitter!", I'd wail. Babysitter, ha! With a field trial dog, who can afford a baby sitter

The field trial—a first experience would read something like this. A car full of children, suitcases, spilled cold drinks and melted candy bars, dog apparatus, and, of course, THE DOG. Wrong turns on dusty roads, a hope-you-like-it-aren't-we-having-fun silly kind of grin on the man's sheepish face, and sitting on top the car to view the kick-off (on a single course, that is). Oh a continuous course, forget it. He's gone for the day on the old rent horse, and you've got the kids. Reaction—it's gotta get better 'cause it can't get worse.

Nex—turn of events. This dog's got to go from the car. Six people in the old station wagon, and even Daddy's losing his cool. Besides, the little woman wants to see what's out there on the course, and the kids are learning their way around with the aid of seasoned field trial children. And so, the jeep and jeep trailer with the dog boxes. Mom and Dad and the children unravel in the car, and Charlie has the blessed relief of his little dog box. The continuous course trials unfold in the majesty of technicolor as the children are left to discover the gallery wagon, the hay stacks, the hidden creeks, the chiggers and the wonders of a bed roll. Memories are made of sand in the boots, little green lizards, muddy feet, bologne sandwiches, minnows, dirty faces, hot dogs, 100 degrees or hail. Take your pick—and we all survived.

Dog—has won a few. The All-age year is here and the man acquires a Colt .45. To replace the deer hunt is the check cord. The bowl game substitute is the pen raised—WHOA! The "bird hunter" carries the shot gun, but Mama has to learn to shoot because the dog must remain steady. Clay pigeons, a new shot

gun, a new lease on life. Enters the spring trials. Now, let's see what's going on beyond this region. Out comes the map, and the teen-ager decides enough is enough. Here comes the grandparents, and we're down to five, one dog, and two new futurity prospects in the dog yard. And, the dog yard has replaced part of the yard. Nice neighbors.

Out—of our region the dogs are wide too. Lots of single courses and many new faces. New pros and lively conversations. My volunteer work at home has dwindled now that the man has discovered I, too, read the Brittany magazine and know how to clean the dog yard. Besides, the horses are here and the dog trailer. And, how about the horse trailer and the new station wagon to match with the big engine to pull the load. Local friends and grandparents shake their heads. The household revolves around the nightly training sessions and the washing machine between suitcases. New discovery—motel rooms with real bathrooms! A pick-up has now replaced the man's T-Bird. The law partners are in awe of the new liberated spirit, and Mama has a .22 pistol.

City—children have a whole new lease on life. They show the new kids the ropes. They can pack their own suitcases, rattle off the mileage, ride like cowboys, make their own lunches, stake out the dogs, and show-and-tell in the school classrooms has taken on new dimensions. Pigeons have joined the pet quail, and little rabbits have come to train with us. All the trials have descriptive names; the Crawdad Place, the Windmill One, the Halloween Adventure, the Ponderosa Pines, the Shakey One and the Dust Bowl. Each adventure is special and cherished. Even that teen-ager has fallen for Mama's little walking mare.

Mama—well, she has her own dog, a happy husband and adventuresome children. And, it all started with that Charlie dog. Ladies only: if you can't lick 'em, join 'em. It might be the nicest thing you'll ever do for yourself and your family. And, you'll see America first—through the eyes of those you love.

## The Case for the Classics (from page 2)

We implore you to give due consideration to devising a means of giving proper recognition to dogs which are winners in stakes where the birds on the courses are 100% wild, without the slightest possibility that they or their immediate forebears have been reared in captivity; where dogs run for a full hour or more on ground that has not that day been disturbed by horse tracks or human tracks; where there are no paths to follow except the running pattern that belongs exclusively to the dog. The winner in such an event is a superior dog and should be recognized as such, particularly with respect to qualification for Championship Stakes.

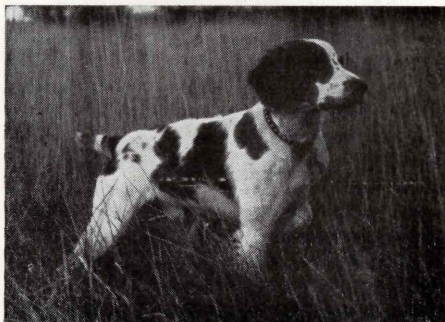

Gentlemen, we rest our case and respectfully request an adjournment until 7:30 a.m. Central Daylight Time, September 13th, at Buena Vista, at which time and place this hearing will be resumed and an adjudication of the issues will be made.

We thank you for your kind attention. Good day!

## Trial Talk

by Nicky Bissell

The spring season brought forth 22 youngsters and 30 adult dogs who took home five more ribbons. A new and more rapid system of compiling the spring winners was attempted in the compilation of these records. Any errors or omissions should be called to the writer's attention.

The top youngster for the season was **Brandy's Pacolet San**, owned by John Madia of Wyoming and Warren Butler of California. Warren was the dog's handler and amassed an even dozen placements with the pup, scoring in both puppy and derby competition in trials from the shores of the blue Pacific east to Oklahoma. San was bred by Bob Wooldrik — from his Brandy Anne — Cheyenne Sam litter.

Following on San's heels and in direct competition with him was **Dualite Mike et Pierre** with nine places. This dog is owned by Karen and Bob Oppie who, previously, had been avid show fans. They hit the jackpot in their first serious attempt at field competition and have a possible dual on their hands. Ron Neumann is responsible for the dog's development.

There were three dogs who placed eight times. The top east coast winner was **Sandy Valley Duke's Daisy**, owned by Bill and Nancy Ullery. Daisy is the first big winner to be sired by Tondée's Sandy Valley Duke. She placed a couple of times in the derby, though still of puppy age. **Hello Dolly Miss Kaer** will be remembered for her Futurity placement last fall. She appeared under a new banner this spring as Les May acquired her during the season. Les also owns **Cheyenne Sam's Repeat**, another eight time winner. In addition his **Perry's Rustic Prince** placed in seven stakes. His three derbies cornered the market with 13 firsts among their 23 placements. How 'bout that!

The magic number of seven produced just that number of winners. In addition to Prince we find **Chieftain's Little Dingo**, owned by Ike Vigil, who began the season in the puppy stake and finished up placing consistently in the derby. **Dave-O Neo Valley Digger** did his

bit all in the derby. Owned by Margie Davis he was handled by her husband, Evert. (the dog's breeder) who always puts down a good one. **Jill the Pill**, owned and handled by Jerry Watkins, did her bit from down Texas way, sneaking in one derby ribbon among her consistent puppy places. Jill is a Bazooka's Brandy pup. **Timber's Marquis de Colorado** picked up both his puppy and derby points for Luke Ruiz. Marquis is royally bred—from Colorado Yankee Timber and Jumping Gypsy. **Sam's Chip Britt J. P. Schroeder** (what a handle that is!) is the latest winner of John and Peg Sawyer of Pennsylvania. A son of Chartier's Valley Sam, the dog was handled in all his appearances by Gerry Cohen. **Solo's Pepperdust**, a nice liver and white, completed his derby stint with a lifetime record of 18 places. He is owned by Mrs. Bill Hoffman and has been campaigned in the east.

To win six places in one season is a record of which any owner may be proud. **Ricky's Smiling Ranger**, owned and handled by the genial Wilson Miers, accomplished that feat. **Bear Wallow Bobbie** did the same. Bobby, Dewey Mullin's latest big winner, is from his successful mating to Kay Cee Bandit that has produced several winners. **Wyotana Buzzer**, limited by his March birthdate, still managed to place six times. He's the Futurity winner with Madia-Butler ownership. **Sequan des Collines** proved that a Brit from a show strain can hold its own with the best field dogs. **Gringo's Butterscotch Taffy**, owned and handled by Jim Woltering, is the final six time winner. He made his record in both puppy and derby.

Jim Fry opened the eyes of his fellow competitors with **Rockbrook's Andy O'Dee**. Andy had five places as did the remainder of the youngsters mentioned here. **Winterton's Jocko**, owned by Ray Swenson and in the Holman string, rounded out a nice derby season. We'll look for more of this one. The latest of the Suzabob juveniles to make his bid is **Suzabob's Hey You Willie**. He is owned by the Kline-Young combo. **Harmony Lane Sissie** sports an interesting com-

bination of bench and field lines with Augustus of Rivers as her sire. She performed well under the magic touch of John Ivester. **Tate's Wee Lad O'Bonny Doon**, another in the string of that avid amateur Warren Butler, shows a great deal of promise for the future. **Durango de Madison**, Walt Chapman's white hope, had a good season. He's a Gringo de Britt pup.

The top winning adult is making quite a record for herself. In a little over 2½ years of campaigning **Suzabob's Frisco Frannie** has won 37 places, 11 of them this past season. Frannie, by Tigar's Jocko out of a Leeway bitch, is handled by her owner, Gerald Supplee, member of the new Del Val club. Her spring record was a quality one as she had five firsts.

In second place is another female, **Christy's Featherduster**, with a lifetime record of 29 places at under three years of age. Dusty won nine places this season under the handling of Lyle Johnson. She is owned by her breeder, Butch Gerlach.

In third place, believe it or not, is ANOTHER bitch, **Hi Dolly Haven**. Dolly began the season with a Quail Classic placement, took eight ribbons and completed her field title.

These top three gals should point up a fact to those who request special privilege for bitches that, if a bitch has the quality, she can make just as good a record as a male in these days of lengthy trial seasons.

Sharing third place honors with Dolly is the top western contender, **Black Butte's Ricochet Trooper**, Lund's youngest field winner. Ricky is building up a nice lifetime record. **Timberlane's Tex**, owned by Ed Randall, had two firsts among his eight places but, because he had no puppy or derby record, he still reaches for his title.

The following won seven places. **Nojo's Suzi**, the Ganje's new field champion, completed her title with three firsts in Open Gun Dog stakes. Though the first two wins were in large stakes at Brittany trials neither qualified as her major win for the stakes were open to other breeds. **Kipo's Tammy Mike** was Warren Butler's weapon in adult competition. His places were in both open and amateur competition. **Charlie Boy II**, under the handling of owner Harold

Brown, made them sit up and take notice the length and breadth of the Midwest circuit. He came within a gnat's eye of completing his title. **Tondee's Sandy Valley Duke** began the season with a string of five firsts and ended it with a win in the last trial of the season. Would you believe he has 24 firsts among his 35 places? **Hi-Spirit Ladie**, Darrell Gaynor's powerhouse, has regained his confidence after his serious tumble last fall and is right up there among the best. **Way Kan Fritts** is back in the groove and is setting a nice record for his new owner, Ronnie Stevenson, with Lyle Johnson the handler.

Seven dogs won six ribbons apiece. **Evergray's Tic Toc Terry** hit his stride this season and created favorable comment as he picked up points in two trials. He's a comer. **Conte de Fere**, or Athos as his proud owner, Fred Bremner prefers to call him, picked up some more points along his way and should finish without any problem. **LeCar's White Smoke** has had a substantial number of places during each of the past seasons and is close to the 50 mark in his lifetime record. He's a quality dog. **Jacque of Connie** won three firsts in his six placements. He is well spoken of in the Brittany world. **Suzabob's Seminole Sadie**, Bob Young's potential dual, is in there pitching trying for that final Open win for her field title. **Briarpatch Doctor Zachery**, a first-year all-age, did the job right for Jack Cash. He has six ribbons to prove it. **Augustus of Rivers** continues to run up his string of firsts, three more this spring plus a Quail Classic placement.

Finally, these dogs have five placements each. **Rebel Roi des Champs** won two firsts as did **Tyone de Malibeu**. **Rhoad's Dusty** and **Air Cargo de Britt** completed field championships while **Coveymoor's Bomarc** made his dual. **Dusty of Lakeview's** placements were all in the Open. **S'No Fun Mack** had a Pheasant Classic placement. **Fluke de Britt's** places were in both derby and adult competition. **Suzabob's Hedgerow Happy** added his five to an already substantial record as did **Killey**. **Scipio Spinks** is still winning—for his fourth owner. **Char-Lee O'Dee** won just five as he was laid up for the major portion of this season.

# ★ THE CHEWING BRITTANY ★

There are two things the Brittany does with a vengeance, dig monstrously big holes and chew anything and everything. Now, not all Brittanies are chewers but a good many of the breed are.

Tales have been told of the Brittany who ate all the cloth from an umbrella, of one who ate a partial plate, of one who chewed a hole in a room sized rug, of one who ate a steering wheel (well part of it anyway), of one who ate some of the woodwork in the kitchen, etc., etc.

Let's look into the reasons why a dog chews. One of the main reasons is boredom. If the dog has nothing exciting to occupy his time, especially the young dog, he may chew just for lack of anything else to do.

It's easy to break this dog of the habit. Just keep him busy. You might try running him more. You can give him something of his own that he is allowed to chew and punish him if he bites into anything else. It isn't recommended that you give him an old shoe because he may not be able to differentiate between a discarded shoe and a new one. Many companies put out rawhide chew toys made especially to give the dog something tough to work on. These are excellent though some dogs consume them in almost no time at all. If your dog is one of that type you will have to look around for something tougher for a chew toy. Whatever you do settle on should be kept at hand so that the minute the dog starts chewing something that's forbidden scold him and give him the chew toy, playing with him with the toy for a moment and praising him when he chews on it.

Most puppies will chew a considerable amount when they are teething, roughly between four and six months of age. Constant vigilance is necessary during this period but you can look forward to the fact that he will probably quit the habit when his permanent teeth come in.

The most difficult dog to cope with is the very intelligent one who resents being left alone. Some Britts will have

impeccable manners in all respects when there is someone in the house with them. But leave them alone while you go to the store and you may return to find the contents of the wastebasket strewn all over the place and the things in it torn and chewed. It's your dog's way of saying that he wanted to go and did not want to have to stay home alone. The best trained dog may steal objects from tables and counters if left alone, partially devour them, and be sitting right beside them defiantly when you return. That's the kind that it is impossible to break in most cases. You can try driving the car down the street, sneaking back quietly and trying to catch him in the act. It hardly seems worth the effort and time involved. The dog's intense hearing will make it very difficult to sneak up on him quietly enough. The punishment may have to be delivered innumerable times.

There are two simple solutions to this problem. The first is to take the dog everywhere with you. (You may find him angry at being left in the car and working on its innards with his teeth!) The second solution may cost you a bit but it is about the most sure way of keeping the dog from chewing the house up, that is to buy a metal crate and shut him in it when you leave the house. The cost may floor you as a good metal crate, Brittany size, will run you around \$40 or \$50. But when you consider the value of the things that the dog may destroy you will find it the most economical buy you ever made.

The kennel dog may be a great chewer. Here, again, it will be mostly from boredom. To keep your kennel looking new you might consider facing all the corners and edges with metal stripping. The galvanized material used as edging for metal roofs can be easily bent to protect the edges of the dog's bed, or the corners of his door. If he chews the walls you might consider sheathing the wooden walls with asbestos board. It has the disadvantage of being quite brittle and must have a very solid backing but dogs find it very unpalatable. The

pressboards, like Masonite, will withstand the onslaughts of the ordinary chewer when new but as it absorbs moisture it takes on almost the texture of cardboard. It won't stave off the persistent chewer, even when it is new.

One must be careful in the choice of paint for the kennel of the chewing dog. Lead based paints can poison a dog. Linseed oil is recommended as a finish for a kennel because it helps with flea and tick control. However, dogs love its taste and it may cause a dog who has never chewed his kennel house to go to work devouring all that nice tasting oil.

Noxious tasting liquids may be used to paint the areas that a dog chews but a careful selection must be made. The choice must be something that tastes terrible but won't hurt the dog if he consumes large amounts of it. Pepper, in some medium that will hold it on the walls, might work. Not only must you consider what will hurt the dog if he eats too much of it but you have to make a choice of something that won't burn or sting the dog's skin. It's not really a great solution!

## OBITUARIES

Alvin Chasteen, member of the Missouri Club almost since its inception, was killed in a one-car auto accident recently. Al held several offices in the club and also did some judging. He will be remembered by those who were around in the early fifties as the owner of Dutchman de Richelieu. Al will be much missed by his friends in the Missouri and Midwest Clubs. Our sympathies go out to his widow, Virginia.

Marvin Nelson, long-time member of the ABC, died recently. He was a former Treasurer of the organization and had placed his famous "Towsey's Bub" several times in National competition. Marv was an avid hunter and a real Brittany booster. He owned several good dogs at the time of his death. He was always willing to work for his local club and the Southern Kansas Club will sorely miss him.

# HEARTWORMS

by Thomas Torhorst D.V.M.

Within the past year, there has been a great deal of confusing information concerning heartworms passed on to the dog owning public. It is in the hope of answering some of the questions which have arisen that I am writing this.

Heartworms, an infestation with **Dirofilaria immitis**, is a common infection in the South, but has only become apparent in the northern states in the last decade. The infective larval stage of this disease is transmitted by the bite of all types of mosquitoes. The larva are accumulated in the mosquitoes' saliva and are deposited on or just in the skin during the bite. During the next 12-24 hours they migrate through the subcutaneous tissue to the small blood vessels under the skin. Then they travel via the blood stream to the heart, reaching the right side of the heart in 60-90 days after the bite. Once in the heart, they grow and develop, over a period of 6-9 months, to mature worms. While in the heart, they start producing non-infective microfilaria that circulates in the systemic blood vessels. These microfilaria are picked up by mosquitoes through biting the infected animal, and are passed, in turn, to a new host animal through the subsequent bites of the mosquito carrier. Hence, the life cycle, as described above, begins anew.

During the period of worm development in the heart, your dog will show little or no signs of disease. It is only the enlarging adult worms which slowly cause the lung damage which leads to the symptoms of the disease. These symptoms include deep cough, spitting up blood, and easy tiring on exercise. These signs usually occur 12-24 months after the original infecting mosquito bite and once they develop, the disease is often fatal. Now, the important point is that **this infection is most easily treated during its early stages before your dog develops the previously described clinical signs of lung damage.** If the clinical signs do appear, the infection becomes extremely difficult to treat successfully.

First and foremost, appreciate that if

you control or eliminate mosquito exposure to your dog, you will greatly decrease or prevent his risk of exposure. Many methods of control are available, including applying insect repellents to your dog's coat, regular fogging of nearby bushes, screening of outdoor kennel areas, and—especially for house pets—keeping your dog inside from dusk until dawn.

Secondly, there is a relatively easy blood test that can be run by your veterinarian which will show the circulating non-infective microfilaria before the clinical signs develop. This test is important in that it must be run before any medication can be given. This test is recommended every 6 months, preferably at the beginning and end of the mosquito season in the northern states. If your dog's blood test is negative, there are three drugs which can be used on a preventative treatment basis:

**Diethylcarbamazine** (Brand names — Caricide, Diroicide, Styridcaricide). This drug is given daily during the entire mosquito season, plus a minimum of 30 days after. The drug will kill only the migrating larva before they enter the blood stream; however, missing 1 dose may lead to infection.

**Dizan.** Dizan is to be given daily for 1 week at regular intervals. This drug will kill the circulating microfilaria but not the adult worms in the heart.

**Arsenical injections.** These injections are given twice a year to kill the young adult worms before they have caused damage to the lung vascular bed.

In conclusion, to prevent this serious infection which can endanger your dog's life, try to control the mosquito population in your dog's environment, have his blood checked at your veterinarian's recommendation, and when there is uncontrollable mosquito exposure, especially in the case of hunting breeds, consider pursuing one of the preventative drug treatments.

After all is said and done, more is said than done.

## FROM THE MIDWEST

by Joy Watkins

### ALAMO

How about this? A nine month old pup, Pete, owned by Marie and Lester May and handled by Marie, won the Puppy and Derby stakes within an hour.

And have you ever heard of birds being so plentiful that one brace of dogs had 22 game contacts between them? Charlie, owned and handled by Harold Brown, had nine outstanding steady finds on wild birds before succumbing to the tenth. I understand that the driver of the gallery wagon drove that Blazer right through the forest just to watch!

### TEXAS COASTAL

Texas boasts its second Dual Champion! Mike Bazooka of Tejas, owned by Patty and Bob Richardson of Houston, finished his field championship by winning the Amateur All-age at the Texas Coastal spring trial.

As darkness fell on Sunday night, Lyle Johnson, Francis Clasen and Lester May proved to be Good Samaritans when an anonymous field trialer took the shortest route (which proved to be the muddiest) and bogged down to the axle. However, after a communal mud-bath, the trusty old farm tractor was the hero. (By the way, I understand the tow chain Lyle used belonged to Betty and Red Hibbert from Oklahoma).

### LONE STAR

Something new here! Pressure was taken off the continuous course when the Open Gun Dog, run on a single course, was held simultaneously with the Open All-age. Dogs were allowed to enter only one of these stakes.

Leo Gales did an outstanding job of transporting handlers and helping keep intruders off the continuous course. But the question arose as to why it took Leo so long to remove the female Labrador dog trainer who was sun-bathing in her bikini atop her car—and why did one of those dozen or so Labs bite him on the hand? Also—could Leo really have whipped the Scoutmaster and the entire Boy Scout troop if they had refused to leave the course?

All the way from Kansas City, Mo.,

came LaReine and Phil Pittman. Phil captured his second Texas Best Handler's award in a year.

### WEST TEXAS

Funny, funny—wish we'd had a camera picture of Dee Nix, stationed high atop a deer stand on the Puppy course trying to locate Bud Higginbotham's wide, wide running pup Sooner Warrior alias Chuka—call-name Pete.

Marshal of the month, Gene Morris, shot and killed the first rattlesnake of the trial as Pro Frank Roach handled his dog Buddy Boy on the Open All-age course. Gene politely borrowed Frank's shotgun for the kill. Several other rattlers were killed, skinned, and taken home to be eaten as future delicacies.

### SOONER

Not much dog action to write about due to lack of birds, but Millie Norvell saw too much horse action. After breaking her arm in six places, she proved to be a true-blue trialer when she returned Sunday for the conclusion of the trial.

### SOUTHERN KANSAS

Even after hauling horses over 400 miles, I found I was always in the wrong place at the time. I didn't get to see, but there was no doubt in the gallery's mind but that Goldtone's Duke had wrapped up the Open All-age with the outstanding race of the trial after he was found on point deep in the woods.

Due to the hard work of Richard Graves and his field trial committee this was the smoothest run continuous course trial considering the 118 entries.

And at what other trial have you seen a smoker (not smoking) with hand shaking, remind another smoker (smoking) that there is no smoking on these grounds.

### TOP O' TEXAS

"Where you wuz now!" The hills resounded with this call all week-end as gentleman Frank Roach handled his dogs. Frank's lovely daughters were in presence, too, riding braces and doing a super job of marshalling the Puppy and Amateur stakes. Understand Jim

Leverich was heard heartily laughing instead of crying when his "tried and trusty" Peppi Gal did the incredible and broke in the bird field.

It will certainly be hard to top the hospitality of this club. Jim rounded up all available horse trailers and people and met the Open All-age down the road about nine miles so they wouldn't have that long, long ride back to headquarters. Only one who sat the saddle 10-12 hours will appreciate this downright thoughtful Texas hospitality.

#### NORTHERN OKLAHOMA

Well, it happened again—Derby dogs placed on run without anyone knowing if they would point a bird or not. Run we want, but let's make sure they'll point too. As usual Nolan Cathey and his crew put on a friendly, well-organized trial with plenty of hospitality.

#### SUNLAND

Easter in New Mexico was appropriately celebrated by this club. Their newly finished gallery wagon had nothing less than real church pews for the "congregation." Of course, that driver was enough to make one love one's religion! Just kidding, Andy Compary, after that first round you did a good job.

The Sunland Brittany Club annually selects someone who has contributed outstandingly to the advancement of the Brittany Spaniel breed. The honor of Mr. Brittany was awarded to a man who has devoted many years to the handling and breeding of Brittanies, Delmar Smith.

#### MIDWEST

High on the rainy, norther-swept prairie, one lonely private struggled and finally erected an open-air latrine. Then he waited, at a discreet distance, for the first unsuspecting "customer" (a lady). When she walked out, he rushed up asking, "Did everything come out all right?"

Only a director from Texas would have the braggadocio to get up at a banquet, 550 miles from home, and invite everyone to come to his club's second sanction field trial! He also urged everyone to make advance motel reservations so they wouldn't be disappointed. He must have done something right though because he was awarded the Best Amateur Handler's Award!

#### NEBRASKA

Luke Ruiz and his traveling companion hold the all time record for checking out of a motel—three hours and twenty minutes. They didn't even get back to the grounds with George Silvola's Derby dog until bird field time!

Someone at the Nebraska trial needed to close the barn door before the horse escaped. Due to the proximity of the Puppy and Derby courses to the highway, one Derby dog got hit and several others narrowly escaped death or injury. Genii's Shank de Lamont was taken into Lincoln bleeding about the head after being bounced from the fender of a car.

The fine organization and trial handling by the field trial committee enabled the club to run 145 entries and be finished in time for this reporter to head back to Texas by 3:00 Sunday.

#### HAWKEYE

This reporter didn't make it this week-end, but the boys said it surely was a lot to drag dogs almost 900 miles, bounce them out on strange grass with unknown birds and expect them to perform up to par. Some field trialers were alarmed when they noticed the Texans gazing up at a second story window of a house at headquarters and saw for themselves the "body" hanging by the neck. When questioned, the Texan replied, "I don't know what he is doing up there, but he quit kicking a few minutes ago." The "body" turned out to be a realistically dressed dummy. The grand finals of the spring season was the outstanding size of this club's banquet. By the way, Debbie Smith, did Rick get you to restore that buggy for the Nationals in your spare time?

Each season of trials brings new friends, reunions with old friends, heart breaking dog performances, ecstatically happy trophy wins, and many new adventures. You're dead tired at the end of the season, but then you can hardly wait for the next one to begin.

A challenge to other Regions: Let's see if you CAN TOP THIS with a report from your region on its trials.

To the Midwest Field Trialers: If you saw something we didn't see, send your Quips and Quirks to Joy Watkins, 4124 Birchman, Fort Worth, Texas 76107.

# 1972 NATIONALS

It's getting near that time of year again, when the Brittany world is looking forward to the events of great importance in November, the National trials and shows.

All those who have written asking about the trials will find their questions answered below.

## GENERAL INFORMATION

The Futurity, which begins Monday, November 6th, will be followed by the Amateur Championship at the West Kentucky Wildlife Area near Paducah, Kentucky. Most people will be staying at the Holiday Inn or at the Diplomat Motel, both located on the side of Paducah nearest the trial grounds, on Rt. 45 (NOT Business Route 45). It is suggested that you make your motel reservations now. Most dinners and evening events are scheduled for either the Holiday or Diplomat which are on opposite sides of a shopping center. Potter's Motel is no more. There are other fine motels on the other side of town.

In case you have forgotten let us remind you that the first Tuesday (the second day of the Futurity) is election day. You should apply for your absentee ballot if you wish to vote. No events are scheduled for that evening in order that trialers may watch the elections results.

Maps and general information may be obtained by contacting the ABC secretary at the Holiday Inn on Sunday morning from 9 to 12. If you wish to see the trial grounds prior to that take U.S. 45 (not Business 45) north from Paducah. At the light .9 of a mile beyond the Diplomat you will turn left on Route 305. Go about 5 miles to the fork in the road where you will take the right on Route 358. From this point it is 6.3 miles to the clubhouse. When Route 358 gets to Grahamville it turns sharp right and a quick sharp left on Lodge Road. Stay on it. You will next pass the Chief Paduke Club on the right and go under a powerline. Watch for the clubhouse on the left with the kennels just before you reach it. On the

right are the stables and a brick house. Don't pass this house. You will see the sign on the left designating that this is the West Kentucky Wildlife Area. Either Mr. or Mrs. Boss (they live in the brick house) can give you maps and directions to find the areas that are open for training.

Horse reservations may be made by contacting J. D. Boss, Kevil, Kentucky. Horse stalls and also kennels are available for \$1 per stall or kennel per day. There is a limit of 4 dogs per kennel. Those with house trailers and campers may park on the grounds near the stables for the duration of the trial.

If you wish to know in which brace you are drawn please contact one of the club officials. Remember that NO official has the authority to tell you at what time you will run. They can only give you your brace number. This is because, in a trial of this size and importance, it is quite possible that there will be many dogs picked up early, especially if several dogs have outstanding performances in the early braces. If you want to be sure of a chance to put your dog down, arrive early and be available. It is the owner or handler's responsibility to have the dog on the line when it is called. Don't take anyone's word for the time you will run (unless it's the very first brace of the trial!) Be sure you are there to get your chance. Those new to the grounds should stick close to either the car or horse gallery for it is hard to locate the running through the many dirt roads that crisscross the grounds.

## FUTURITY (BENCH & FIELD)

The 1972 Futurity will be under the direction of Larry Wallace. Aiding him in the running of the trial will be a committee composed of Doug Croxton, Tim Poling, Dewey Mullins, Bob Heinel, Dan Buster and Ronnie Stevenson.

A list of all entries received with their pertinent information will be found on Pages 54 thru 61 of this magazine. Conditional entries (usually so designated because they lack a registration

number) must be completed before a dog is eligible to run or to be shown. All entries have been acknowledged. If your entry is not listed you should contact Nicky Bissell, Sherwood, Ore. 97140 AT ONCE.

All those who own eligible Futurity dogs will receive entry forms for the Futurity, for the Specialty Show and for the Amateur Championship. Futurity entries must be received by the deadline, November 3. These entries are to be mailed to David Kenney, 5 Hillcrest, Carbondale, Il. 62901. The entry fee is \$10 for the Field and \$5 for the Bench. Do NOT send entries to the ABC office in Sherwood. If you wish to check on your entry please call the ABC secretary at the Holiday Inn in Paducah on Sunday morning from the hours of 9 to 12. Do not call Dave Kenney because he is only acting as a postal point for the mail and will not be processing entries.

The exact amount of the purse will be posted on the bulletin board in the club house. It can be expected that it will equal last year's figures when the first place field dog won \$1100 for his owner down to the fourth that paid \$400 as the owner's share. The bench purse will be approximately \$650 for the owner of Best Dog in Futurity down to an \$80 purse to the owners of the two who receive third money. The breeders of the winning dogs will receive one-half the above amounts.

The drawing for the Field Futurity will be held at the Clubhouse on the grounds on Sunday afternoon, November 5th, at 4 o'clock. The stake will begin the following morning at 7:30. The scheduled judges, both from Kentucky, are Ferrill Miller of Murray, and Dr. H. A. Gray of Bowling Green. Miller will be remembered by those who attended the 1972 Quail Classic in January for his astute decisions there. Dr. Gray judged one of the very early ABC Championships in the forties.

The Futurity is run under ABC jurisdiction and is not an AKC trial. The complete rules will be found on the reverse side of the entry forms. It is hoped, because this is the inaugural event this year, that birds will be more plentiful than when the stake was the last one on the program. The entry is anticipated to be around 100 dogs. All

those who have bitches in heat should notify the secretary before the drawing. They will be placed at the end of the stake.

The Futurity Show will be held at the National Guard Armory beginning promptly at 9 on the morning of Friday, November 10th. You will find your dog's show number listed in the second column of numbers in the listing in this magazine. Dogs will be shown first and classes are divided into three separate groups by birth date, Jan.-Feb.-Mar., Apr.-May-June and July-Aug.

Judging this year's Futurity Show will be the well-known breeder, Robert Young of Glen Mills, Pa. Mr. Young breeds the Suzabob dogs which are noted for their winning both field and bench. As an experienced breeder and participant in shows, both as an exhibitor and as a judge, Mr. Young is aware of the dual standards and requirements.

#### SPECIALTY SHOW

The Specialty Show will be held on Friday, November 10th at the National Guard Armory with judging scheduled to begin at 1 o'clock. The judge, an honorary member of the American Brittany Club, is Maxwell Riddle of Ravenna, Ohio.

Several innovations are planned for this year's show. Among them are a Parade of Champions and classes for Stud Dog (with 2 of this get) and Brood Bitch (with 2 of his offspring).

The winter specialty is really the "Dual" show with many of the field participants entered mainly to try for points for the Dual Award. May we strongly stress that dogs who want points towards this award will stand a much better chance if they are entered in any class but the Open. The Open class usually has 15 or more dogs entered in it and so many dogs go unplaced. The other classes, Novice, American-Bred and Bred-By-Exhibitor attract a light entry and this presents a better opportunity for the field dog to get his dual points.

To win points towards the dual award a dog must place in the ribbons in one of the regular classes of the show, defeating at least one dog in the process. So, if the dog is entered in one of above classes with an entry of 5 and places

anywhere in the ribbons he's eligible for the Dual Award. In addition the dog must receive points in the Open or Amateur Championships.

The Parade of Champions, a non-competitive class, is held after the Best of Breed competition. Dogs will circle the ring individually while a short resume of their record will be read. Any bench champion entered in this class automatically receives 3 points towards the Dual Award, just exactly the same as for an entry in Best of Breed competition. He wins 3 points for one class or the other, not both.

The class was introduced so that those who owned bench champions that were in field condition, or that were getting beyond their prime for the show ring would not have to compete with the younger dogs. Instead of standing around the ring for a lengthy period in competition in the large Best of Breed Class (usually 20 or more entries) knowing there is no chance of defeating the younger dogs in their prime and in top show condition the dog may instead gait proudly around the ring once while spectators are informed of his major claims to fame.

The show chairman is Ray Cox of Tucson, Arizona who will be aided by a committee composed of Dorothy Macdonald, Dan Buster, Ellyn Lee, Wayne Fessenden, Jan Hoover and Eva Lewis. Entries close with the show secretary, Nicky Bissell, at the ABC office on October 24th at 8 p.m. Entry forms will be sent to all those who have Futurity entries, to the owners of dogs that qualified in the spring for the National Amateur Championship, and to those who entered last year's show. All others must request entries.

#### NATIONAL AMATEUR CHAMPIONSHIP

The Amateur will begin on Saturday, November 11th. A list of dogs that qualified in 1971 and in the spring of 1972 will be found on Page 19 in this magazine. Other dogs may qualify in the upcoming fall trials by winning first or second in any Amateur Stake in an AKC trial held by a regular Brittany Club. All Field Champions automatically qualify.

James Cohen is stakes manager for this stake and will be assisted by a

committee which consists of La Reine Pittman (field trial secretary), Chuck Pecoy, Howard Tutton, David Kenney and Thomas Tivnan.

Entry blanks will be sent to all who have Futurities, to all who entered last year's Specialty Show and to all who entered last year's Amateur Championship and to the owners of the non-champions that are listed on Page 19 as having qualified. If you do not fall into any of these categories you should request entry forms from the ABC office or from La Reine Pittman.

Entries close November 1, 1972 with the field trial secretary, La Reine Pittman, 2515 Oakley, Kansas City, Mo. Those who qualify the last week-end, October 28-29 may phone their entries to Mrs. Pittman at 816-241-4768. Completed forms for these phone entries must be in the field trial secretary's hands with fee by November 4th or the entry will be cancelled. Dogs winning at trials scheduled after the closing date for entries will be eligible for the 1973 Nationals, not for those in 1972.

The drawing for the Amateur is scheduled for Wednesday, November 8 at 8:30 in the evening at the Holiday Inn. Those who desire to know when they must arrive should call Mrs. Pittman at the Diplomat Motel for the number of their brace. The Amateur Calculutta will be on Friday, the night before the stake begins. This will be held at the Diplomat Motel and will not have the automatic limit that has been imposed in the past couple of years.

Judges for the Amateur will be Everett Metzger of Oregon, James Malia of New York and Dr. Dudenbostel of Carbondale, Illinois. Metzger has judged several championships and is a member of the ABC Board. Malia is a solid campaigner, having finished a couple of dogs in Brittany trials. Dudenbostel owned an outstanding pointer and has judged previously.

#### OPEN CHAMPIONSHIP

Few details of this stake are available at press time. As entries will not close until mid-November complete details will be given in next month's magazine.

The stake will begin on November 18 at the Lake Murray grounds near Ardmore. Those who desire to make their

reservations early should contact the Lake Murray Lodge, P. O. Box, Ardmore, Ok. 73401. La Reine Pittman will act as field trial secretary and Red Hibbert will be stakes manager. Entries are going to be sent for the dogs listed on Page 19 in this magazine as having qualified in the spring trials. If you have any expectations of having your dog qualify in the fall trials please request entry forms from La Reine Pittman, 2515 Oakley, Kansas City, Mo.

To qualify for this stake you can win first or second in an ABC Classic, first in any Open All-age Stake in a Brittany trial of under 30 entries, first or second in an Open All-age Stake in a Brittany trial with 30 or more dogs entered in that stake. Gun Dog or Limited All-age stakes in regional trials are NOT qualifying stakes.

## END EXCESSIVE BARKING

Barking is good and absolutely necessary. But excessive barking is simply a nuisance. Neighbor-relations can be strained to the breaking point resulting in costly legal action or possible harm to the barking dog.

TRI-TRONICS INC., manufacturers of electronic animal-training products, recognized this problem and set out to solve it in a way that was both effective and humane. The result is the Bark-Training Collar.

It works automatically by picking up the vibrations from the sound of the bark and at that very instant creates a startling sensation. The dog learns by association. He will curb his excessive barking habit immediately. The collar may remain on the dog for a day or two followed by similar training periods from time to time to reinforce the learning process. Completely safe—yet the most effective Bark-Training aid ever developed.

The tiny Bark-Training unit is only 1½" in diameter and weighs just 4 ounces. Two sizes are available. Model BTS (small size) adjusts 8" to 12".

Model BTL (large size) adjusts 12" to 18". For extra large sizes, a collar extender may be purchased for \$2.50 which adds up to 12" to collar length.

The Bark-Training Collar carries a 90 day warranty against defects in materials, workmanship and long-life energy cell.

The price is only \$29.95. For normal delivery, add \$1.50 for handling and postage or . . . for instant delivery, add \$3.00 for high priority handling and air mail postage. Pays for itself over and over again by eliminating the problems that can result from unchecked excessive barking. 10 day money back guarantee.

## ZENAIDURA MACROURA

Known by a variety of names, including the Carolina dove, turtle dove, wild dove and wild pigeon, *Zenaidura Macroura* derives its most common name from its pleasant plaintive call—the cry of the mourning dove.

The mourning dove is distinctive among all game birds of North America in that it breeds in every state except Alaska and Hawaii and in every Canadian province. There are three subspecies: *Z.m. carolinensis* (Eastern United States and Canada); *Z.m. marginella* (Western United States, Canada and Mexico); *Z.m. macroura* (believed to be non-migratory and restricted to the Caribbean islands).

The male dove, topped with ash-brown feathers tinged with green, has a pinkish beige to its underparts. Its tail, blue-gray and spotted with white, has black running along the sides. A distinctive black spot adorns the side of the head, and the neck feathers are iridescent. The small and slender bill curves slightly downward. The female has a shorter tail and lacks the iridescence of the male. Adult birds average about 12 inches and weigh approximately 4 ounces.

The mourning dove builds its nest in a variety of places, usually seven or eight feet from the ground. (Some nests have been found as high as even 20 feet). A clutch generally consists of two eggs and hatching occurs in about two weeks. Both the male and female contribute to incubation, with the male taking his turn from approximately 8:00 a.m. to 5:00 p.m. Maturity is reached in about six months.

The diet of the mourning dove consists of the strange combination of wheat, oats, rye, barley, weeds and insects, usually grasshoppers and worms.

Early settlers to the North American continent found the species in great abundance, but by the beginning of the 20th century, the population had declined. The National Audubon Society, however, has revealed that evidence indicates the mourning dove is not endangered but is, in fact, doing very well in all parts of its range. In at least 25 southern and western states where the species is numerous, the mourning dove is hunted as game in carefully controlled shooting schedules.

## PERDIX PERDIX

Perhaps the ornithologists were running out of names when *Perdix Perdix* was christened. Why else would they have given him the same name twice? Unless, of course, as some of his most avid boosters would like to believe, it was done to emphasize the fact that he's twice as good as the run-of-the-mill game bird. Few sportsmen who have successfully hunted *Perdix Perdix*, or Hungarian partridge as he is better known, would argue the latter contention. For the Hun is a fast-flying target on the wing, sporty enough to test the mettle of any expert scatter gunner, and on the table, a succulent treat able to excite the taste buds of any gourmet.

Originally, the Hun, or more properly the European gray partridge, was introduced to our shores just prior to the turn of the century. After a number of unsuccessful plantings were made, this worthy immigrant finally got a firm foothold in the northwestern states and in several Canadian provinces. Since most of the plantings that took hold were birds imported from Hungary, the name Hungarian partridge, or simply Hun, naturally evolved. Gregarious throughout most of the year, Huns congregate and travel in coveys. Grains such as wheat, oat and millet make up the chief staples of the bird's diet, though at peak periods of insect activity, locusts, potato bugs, grasshoppers and other common varieties are readily gobbled up.

During the nesting season, which is in late spring, and through the incubation and brooding periods, both cock and hen share the business of raising the family. Mature Huns run about 12 to 14 inches in length, weigh between 12 and 13 ounces and are predominantly gray in color. Their wings are of a brownish hue, however, and the hunter first shooting Huns is often mystified to find that what appeared to be a russet-colored target on the wing turns out to be a gray bird on the ground.

Most Hun shooting is open country shooting, for the Hun's preferred habitat is the cultivated grain field. A close-bored 12-gauge shotgun, No. 6 shot and a fast, wide-ranging pointing dog are essential for consistently putting *Perdix Perdix* in the hunter's game pocket.

# THE PRESIDENT SPEAKS

by Lloyd Conable, Jr.

In March we really put some miles on in travelling around the country. Although Ella and I met on the West Coast and lived there for awhile I hadn't been back in 18 years. Last fall we started planning on a trip this spring to attend a couple of field trials. The Northern California and Oregon Clubs extended me an invitation to judge their trials on consecutive week-ends which helped on expenses while we were out there. A business meeting developed in San Francisco and I made a stop off in Denver on business on my way home so travel expenses were reduced. How lucky can one get.

Looking at bird dogs is one of the most enjoyable things I know of and judging offers the best seat in the house. It is always more of a pleasure to judge dogs with whom you are unfamiliar so I looked forward to the Northern California and Oregon assignments and was not disappointed. And one couldn't ask for two more diverse types of grounds than Grizzly Island and Camp Adair. As a result we saw completely different types of performances on successive week-ends by many dogs although there were some that did fine jobs both times.

I was asked while there, and have been asked back this way since, how I thought the West Coast dogs compared with the eastern dogs. I would have to say very favorably. In general I feel, based on what I saw, that the West Coast dogs are better broke than Midwest, Central and East Central dogs particularly and somewhat more so, perhaps, than the East Coast dogs. West Coast derbies are definitely stauncher on point than those over the rest of the country. There was seldom any question of a derby pointing acceptably—in most cases handlers were able to flush in front of the dog. That is more the exception than the rule east of the Rockies, I believe. However, generally speaking, the West Coast dogs don't handle cover as well as the Midwest, Central and East Central dogs due to lack of opportunity. This shows when they come east for the Nationals. Of course, I think the staunch-

ness of the West Coast derbies shows in Futurities. Look at the number of Futurity placements including firsts that have gone to West Coast futurities in the past seven or eight years. It is more than proportional to the entries. As far as all-age dogs handling cover goes I would expect to see the dogs from elsewhere have some problems on the West Coast until they adapted and I saw many dogs on the West Coast that would handle the cover east of the Rockies in fine style after having a chance to adapt to it.

After returning home we attended the Pennsylvania and Ohio regional trials and following the Ohio trial wended our way to Green River, Ill., via Dewey Mullins' grounds in Kentucky to pick up our horses, to the Pheasant Classic. These are fine trial grounds and a lot of people put in much hard work for the Classic only to see it almost negated by some unseasonably heavy snow. The Classic came off in good shape nevertheless with a worthy winner in Brandy's Bullet. Again we met many new friends from this area as well as renewing acquaintances with some of the old timers. It was good to see Hazel Bone and the Lafleurs again.

While we were in Oregon Nicky told me Fred White had a complete bound set of past issues of the American Brittany Magazine that belonged to the club. Since Fred is located less than an hour from the Classic headquarters I called him and he graciously consented to turn them over to me. I now have them and I must say that it is a most humbling experience to read through the early editions and see the names of so many people very actively involved today who were the backbone of the club in its early days. The magazines go back to the first issue published in October 1942 when it was called "The Brittany Field and Bench." There is a break in continuity in the set starting in 1959 but Jack and Ruth Secor told me they have most of their back issues and will be pleased to fill in the set for the Club. We'll get together on that this fall, probably on our way to the Chicken Classic.

## THE *Show* STANDARD

by Mary Rosenbaum

Several of our sport magazines have had articles in regards to the field trial dog versus gun dog and field champion versus bench champion. This has been a top debate for years.

Our Brittany comes in for much criticism in regards to size, length of tail, light or dark eye and others.

Are we so caught up in the advancement and development of the Brittany to the degree of winning; that we have overlooked the main purpose our dogs were originally bred for?

The following is from the AKC Breed Standard for the Brittany Spaniel:

A compact dog of medium size, tail no longer than 4 inches, under 17½" or over 20½" to be disqualifying, any black in the nose or coat to be disqualifying. The coat to be dense, never curly, ears should carry little fringe, legs should not carry heavy feathering. Note: long, curly or silky hair is a fault. Any tendency towards excessive feathering should be severely penalized as undesirable in a sporting dog. A prominent full or pop eye should be heavy penalized. Light or mean looking eyes to be heavily penalized. Drooling to receive a heavy penalty. Overshot or undershot jaw to be penalized heavily. An extremely heavy bone is as much a fault as spindly bone. Flat feet, splayed feet, paper feet, etc., are to be heavily penalized.

Why are the standards developed? Mainly to develop a certain type of dog and above all to keep our Brittany "the dual dog."

Are we finally dooming our breed like the Setter, Pointers and other Spaniel breeds that compete in show competition? Large heavy bone and excessive feathering and coat along with a multitude of other sins that keep these dogs out of the field. How many of these dogs are ever field trialed; let alone used under the owner's gun!

More and more of our top show winners are so far from these standards now, will it be just a matter of time till the standards are changed or over-

looked in our quest for the perfect show Brittany.

Are we defeating the purpose of why our breed was developed? Why are so many of our breed being excessively groomed, clipped and restyled? If our dogs were bred according to the above standards these methods would not be necessary. Our show judges are swayed to what the breed enthusiast wants, but is this our desire and ultimate goal for our Brittany?

Now is the time to take a good long look at our little Brittany. How much longer will he be truly called "the dual dog?"

### HEIDI IS GONE

Royal Heidi would have been one of the great ones. She was owned by Jerry and Amos Armstrong. Amos is President of the Alamo Club.

Heidi would have begun her all-age career this spring. She wasn't trialed as a puppy but as a Derby, Heidi never let you down. With placements at Greater Phoenix, Mo. Valley, Sunland, and firsts at Northern Oklahoma (50 entries), and Alamo (her home club), she gave her all.

Heidi was always a lovable, sassy and noisy little bitch. When corrected she would bark at you as if to say, "I won't do it until I'm ready." Always she demanded and received a lot of love.

Heidi will be remembered as the hard-driving little red bitch with such enthusiasm and so big a heart—and that's what gave up on the operating table. She lives on, though, in all our hearts. Heidi, the eager little bitch—with the great big heart.

## RECENT *Happenings* AT A.K.C.

A lot of interesting things have been going on at the AKC in the past few months. Here are some of them.

### CHANGE IN APPEARANCE

In the May issue of the Gazette, the official AKC magazine, an article appeared on the showing of dogs that have had their appearance changed by artificial means.

When one speaks of a dog's appearance being changed by artificial means one immediately thinks of dogs that have had surgery to correct ear carriage or surgery to remove the inner eyelid. Any such surgical procedure makes a dog ineligible for dog shows. So does the operation that corrects entropion (a condition where the eyelid turns inward causing irritation to the eye that may result in blindness), or a pectineal myotomy (the cutting of the muscle to relieve pain caused by HD).

Dogs that have been spayed or castrated, or males that have one or both testicles missing cannot be shown in dog shows but are eligible for competition in field trials.

Also not eligible for awards at shows are dogs whose natural color has been changed by artificial means, dogs that have been whitened by loading the coat with chalk for instance. The AKC even went on record as opposing trimming that has the effect of concealing or removing a condition which would be a fault under the breed standard. In the Brittany breed this would apply to dogs with curly coats that had been stripped to give the appearance of a smooth coat.

Their reasoning was that, if any change had been made in the dog, the judge would not be expected to guess what the dog might have looked like without the change.

The only changes spoken of as allowable were those like the removal of dewclaws or the docking of tails that were usual and customary for the breed.

The article also hit hard on the use of drugs with any use of a stimulant or

depressant to change the outward appearance of the dog's disposition declared to be illegal. If such a drug had the effect of tranquilizing an overly aggressive dog or stimulating one that was sluggish and listless it was considered as altering the dog's appearance by artificial means. Neither does the AKC look with favor on the use of drugs to kill pain, drugs that might improve the gait of a dog that suffered from arthritis. We will quote the portion about the use of drugs in full as it also applies to field trials.

"It should be obvious that any person who exhibits a dog in the show ring knowing that the dog has been changed in appearance by artificial means, subjects himself to charges of conduct prejudicial to the best interest of purebred dogs, dog show or obedience trials, if the change is such that it might be considered to improve the dog's appearance or behavior in the ring. The same situation would even apply at field trials if a dog had been subjected to a drug or other procedure that might be considered as tending to improve its performance in the field. Such conduct might be subject to a Bench Show, Obedience Trial or Field Trial Committee hearing at the event or immediately following it, or might be subject to formal charges preferred by or through The American Kennel Club and heard by a Trial Board."

In the show ring the responsibility for detecting the change is up to the judge. He disqualifies the dog if, in his opinion, the dog is under the influence of drugs. No proof is required. If the judge fails to detect the change a written protest on the dog may be filed by any other competitor.

It would seem wise for participants in trials to refrain from giving their dog any type of medication prior to their running. Dosage with any type of medication might be misinterpreted by a competitor and be cause for a protest to the Field Trial Committee.

### WOMEN' LIB

After 10 these many years it seems that women's rights may finally receive their just due at the AKC. At a recent Board Meeting the delegates were requested to give serious thought to a change that the AKC is considering. The AKC has only allowed male delegates to be appointed by member clubs. They are now seriously thinking of opening the door to women to serve in this capacity.

### TRIAL CONFLICTS

Last spring there were five trials on the same week-end within a 200 mile radius in the east that had stakes open to GSP's. Complaints resulted and the AKC is looking into the possibility of applying the same rule to the field that applies to shows.

With our provision for a Field Trial Date Committee to carefully coordinate dates, watching for conflicts, it is probable that Brittany clubs would continue to arrange their date schedule in the same manner as we now do. No more difficulties would be anticipated than at present.

If a ruling is made it may have an effect on the clubs that open some of their stakes to other breeds, because, if the ruling follows show procedure, no two events open to the same breed may be held on the same day within a 200 mile radius. Therefore any Brittany Club's trial scheduled on the same week-end as a GSP trial in the same area would not be able to open any of its stakes to GSP's.

### BEGINNER'S BASIC

The breech is the rear portion of the bore of a firearm where the cartridge or shell is inserted into the chamber. The breech block is a sliding metal block at the breech which serves to plug the rear of the bore, supporting the head of the cartridge when the gun is fired. The breech bolt takes the thrust of the expanding gases and blocks the force of these gases to the rear. The peak of this rearward pressure is expressed in pounds per square inch. During testing, this breech pressure is measured with a special pressure gauge.

## Show Case

SHOW CASE is the place to display your top winner, either field or bench. Cost is \$10 if we do not have a cut of your dog on file, \$6 if we do. All dogs completing their Dual Championships will be featured free of charge. LET'S SEE YOUR WINNER PICTURED HERE.

**Ch. Reno' Jet**, another outstanding daughter of Fld. Ch. Reno Diablo x Bett's Belle Jet. She made her mark early in the field by placing in several puppy stakes and did better in derby by winning derby points and multiple other placements. She has been field trained and handled by her breeder, Carl Percell. After her second birthday she semi-retired for a year. Her quest for show championship started May 1971 and two months later she was a champion. Winning a third, a second, 9 WB, 8 BW, 7 BOS and 2 BOB. Finishing with major at Richmond, July 3, 1971. She has been shown four times as a champion. Her most notable win was BOB at this year's Northern California Specialty over 50 entries. Also winning BOB at Richmond, July 8, 1972. Her show handler has been Frank Housky. Renee is now at Percell's Kennels to try to complete her Dual title. Her proud owners are Mr. and Mrs. John W. Richter of Hayward, Calif.

A critic asked the sculptor why he had given the statue of the field trial judge such a peculiar pose. He replied, "It started out as an equestrian statue, but then the club found they couldn't afford a horse."

On March 18, 1972 at the Saginaw Valley Kennel Club, our roan bitch, **Ch. Jerdol's Taurus Ginger**, completed her championship. She is owned and handled by Henry W. Riske of Marine City, Mich.

Her show record is four BW, five BO, and three BB. She finished with four majors.

Ginny is sired by Kiji's April Fool ex Ch. Jerdol's Sandy Chip.

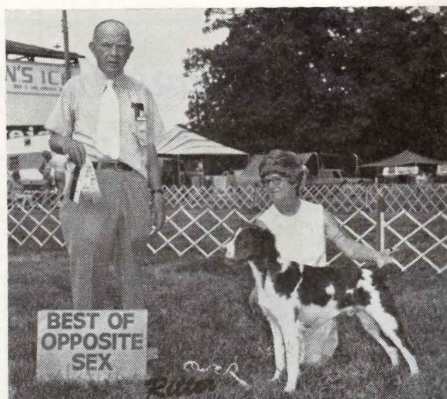

**Sodak Sandy Sioux** recently completed his dual title at nine years of age. Richard Culbert acquired the dog some time after his winning a major on the bench in 1966. He was campaigned in the field by Lyle Johnson for the first time in 1969. Since that date he has won 17 field placements, his top win being first in the Quail Classic in 1971. He won two major shows in 1971 and finished his title there in 1972. He has won four Open adult stakes, one of them in an entry of 54.

**Ch. Cageo's Cover Girl**, outstanding producing daughter of Dingo's Zippo ex Ch. Baby Gemini of Darkwater, shown going Best of Breed under Judge Winifred Heckman, with handler George D. Edge, Jr. "Covey" is distinguishing herself as a producer of multi-champion litters; her first sired by Ch. Ches-Val's Sparky produced Champions Cageo's Perkiomen Valley Zipp, Jock and Addy with others nearing their titles. Her second litter by Ch. Cageo's Little Rascal this year has produced Ch. Cageo's Perkiomen Valley Bart. "Covey" is presently caring for a litter sired by Ch. Cageo's Perkiomen Tic. She is owned by Cageo Kennels, Reg., Schwenksville, Pa.

**Ti-War Chip's Ginger Chip**, sired by Ch. Ti-War Chip de Triumph out of Charlie's Ginger Girl C.D. (championship pending AKC confirmation), took Winners Dog and Best of Opposite Sex at the Champaign, Ill. Kennel Club Show at Urbane on July 1, 1972. The show was a 3-point major for 10 month old Chip, who has six points toward his championship. He was shown under Judge Kenneth W. Givens by Liz Temple, wife of breeder-owner Horace L. Temple of the Greater Indianapolis Brittany Club. Chip took Winners Dog and Best of Opposite Sex at the Mid-Kentucky Kennel Club Show at Hodgenville, Ky. May 6 at eight months of age under Judge E. W. Tipton, Jr. At Paducah Kennel Club, Inc., at Paducah, Ky. on June 18 he went Best of Winners under Judge Phil Marsh.

**Coveymoor's Bomarc** began his career under the ownership of Bobbi Tibbets taking winner's dog at the ABC winter Specialty in 1970, and winning both his puppy and derby points. Al Langan then acquired him and he completed his bench title with three more majors. The Holmans are responsible for his adult field career which consists of ten placements, two of them Open All-age firsts. Bomarc completed his field title this past spring. He is from the mating of the two duals, Trooper's Little Frenchman and Juchoir's Trooper Jill. His only winning son to date placed first in the Futurity in 1970.

**Ch. Riske's Kay Prince**, sired by Ch. Jerdol's Apollo Prince and Ch. Riske's Gay Opening Day completed his championship at the age of 15 months on April 30, 1972 at the Toledo Kennel Club. Prince is owned and handled by Henry W. Riske of Marine City, Mich.

To date, July 15, 1972, Prince's record is six BW, seven BB, and one sporting group fourth. Prince received BB at the Pennsylvania and Ohio summer specialty shows immediately following completion of his championship.

**Jock Scott of Big Meadow** completed his field title this past spring to become the second dual owned by G. W. Smith of Connecticut. Jock had a topnotch show career in 1966 when he finished with four majors, one of them a Specialty Show win. His field record shows 18 placements, his best year being 1971 when he placed consistently in the East Coast circuit. Jock made both of his titles under the handling of the Morehouses. He is by Bucentaure de Klem-anor x Casse, a full brother to Bishop of Big Meadow, Smith's other dual.

**Ch. Beaver Dam Cinnamon Teed**, by Fld. Ch. Chip's Get ex Dual Ch. Faircrest Polyjet, has been on a show lead seven times in her life, she finished her championship undefeated after her first show. She was BOS at Westminster from the classes over specials the only time she has been shown as a special, she was BOS at the Susquehanna Specialty. Cinnamon was shown by Catherine Murphy and Doris McGee. Cinnamon has been trained and worked as a grouse dog.

Cinnamon, owned by Leon Gordon, has been leased by Sequani Kennels and has ten pups by Ch. Sequani's Dana Macduff. She is OFA certified.

#### GOLFER MEETS GROUSE

We heard the other day from a southern Ohio grouse hunter who had just returned from a walk with a friend.

On their way to a neighbor's house, the two men took a shortcut through the edge of a forest. The hunter observed: "You know, this would be a good place to kick out a ruffed grouse."

His companion, who was an ardent golfer but no nimrod, asked: "How will we know if we do? I've never seen a grouse before."

"Oh, we'll know," replied the hunter.

They had gone about twenty paces when a ruffed grouse roared out of the leaves before them. With eyes bulging, and both feet off the ground, the golfer pointed at the vanishing bird and screamed: "FORE!"

When attacked by a dog or man, the opossum may remain motionless even while being mauled viciously. Biologists speculate they may be in a state of shock.

## New Champions

Confirmation of new champions, obedience degree holders and group winners is taken directly from the Purebred Dogs (official AKC publication). Do not notify us that your dog has finished unless his name is not published at the end of five months. It takes this long for official confirmation to reach the pages of the American Brittany. Show results are sent in by owners. BB, BOS, BW, WD and WB must be given. (Major shows only).

At the AKC quarterly delegate's meeting some interesting things occurred, some will be found reviewed elsewhere in this magazine. Those vitally interested in shows should obtain the AKC Gazette and study the proposal for earlier show closing dates and mailing of premium lists. Also to be noted is that registration of all-breeds dropped for the month of May, the first time a drop has been recorded for some time. The drop in Brittanies is slight, only 14 dogs (1006 registered), but this drop may have significance.

The formal notice that we may now use three judges in our championships is in the current Gazette.

Mrs. Erica Huggins has been approved to judge Brittanies. She previously held a license to judge in other breeds.

## *Britts & Britfans*

Three male pups, three month old roans, owned by Ken and Bobbi Markiewicz, took first in the Puppy Litter Class at the Valparaiso (Ind.) Fun Match in competition with 18 other breeds.

At the Tartan Gordon Setter Club's trials in Connecticut **Rhoad's Dusty**, owned by Alan Rhoads and handled by Terry Cleary won second in the All-age and fourth in the Gun Dog.

At the Tacoma Pointing Dog Fun Classic Britts did very well. **Kip** (Hames) was first in the Gun Dog, **Hank** (Stavik) was second and **Tammy** was fourth. In the Puppy the winners were **Jeff II** and **Dandy**, both owned by Art Stavik. **Doc's Brandyfire** (Snook) took the Derby with Jacobson's **Wandering Star** in for a second.

A memorial fund is being established by friends of young Mark Smith. The memorial will be a \$60,000 Mark Smith Cabin at the Falls Creek Baptist Assembly near Davis, Okla. The cabin, which will house 80 youngsters will replace an older one owned by Mark's church, the First Baptist Church of Edmond. Donations may be sent to the First Baptist Church of Edmond or to Betty Hibbert, 5108 N. Beaver, Bethany, Okla.

Early balloting in the American Field Hall of Fame shows that four Brittanies have supporters for that honor. Those listed as receiving votes are **Ferdinand of Leeway**, **Kaer de Cornouaille**, **Towsey** and **Pontac's Dingo**.

In the Ottawa (Can.) trials the Restricted Breed Shooting Dog Stake was won by **Jaybee's Little Princess**, with second going to **Sundancer's Breton Nico**. Princess is owned by Jack Bradley and, as usual, was handled by Glenda Bradley. Nico is owned and was handled by Jerry Gizycki.

At the Hawkeye Vizsla fun trial this summer in Iowa the only Britt to bring home a ribbon was **Gee Whiz Jill**, owned by Steve Penisten. She placed second in the Derby.

The New Brunswick (Can.) trials held a Restricted Breed Stake. All three placements went to Brittanies, **Easy Gus** (D. Pierce) being first, **Deleigh's Lonesome Luke** (A. Wishart) second and **Alderwood's Dandy** (R. Ashfield) third.

At the Wichita Club's trial in the spring **Mister Dillon** topped a field of 25 to win the Amateur Shooting Dog. He was handled by his owner, Fannie Ludwig. Taking second slot in the same stake was **John's Susie**, owned and handled by John Patterson. These were the only two Brittanies entered in the stake.

**Sandy**, owned by J. E. Coleman, was second in the Amateur Shooting Dog at the Houston trials in April. The stake was a walking one and had an entry of ten.

**Thompson's Carlisle Corky**, owned by Dr. Thompson, handled three birds at the Pa. Bird Dog trials. This, coupled with a true shooting dog race, gave him a third in the Open Derby.

**Suzabob's Hey You Willie**, owned by Kline and Young, was the winner of the Open Derby in a field of 17 at the Gordon Setter trials in Western New York.

A California Brittany made the UPI wire recently and her picture, feeding her several pups with an ice bag on her head, appeared in papers across the country.

Rich Brown's **Desert Dust Tide** won the Fort Wayne Pointer Club's annual Hunter's Classic in a field of 18, two being Britts. Tide is only two years old.

**GOOFS**—The owners of the new champion Jerdol's Taurus Ginger are H. & D. Riske. In the photo on page 2 of the July issue the first dog in the lineup at the bottom of the page is mistakenly identified. The dog actually is Ch. Freckles Von Duckworth C.D.X. and the handler is young Kitty Ortman.

## SPRING TRIAL

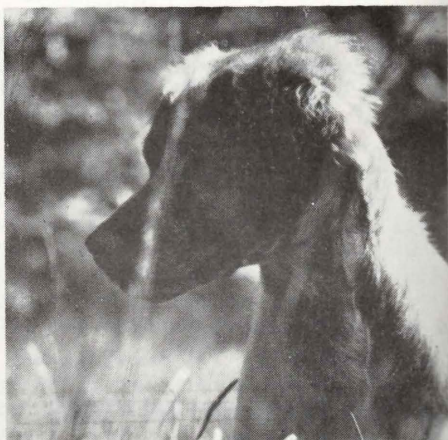

by Thomas Tivnan

The North Jersey Brittany Club held its spring 1972 field trial over the demanding courses of the Assunpink Wildlife Management Area, Monmouth County, New Jersey. The club was gratified to accept 137 entries for its four stake program held on Saturday and Sunday, April 9 and 10, 1972.

Saturday morning brought weather conditions almost beyond description. The temperature was in the high teens and the wind was estimated at about 30 miles per hour. In short, it was bone-chilling cold. The Open All-age broke away at 7:00 a.m. under the judgment of Wrightson Clinton and Thomas Kerwin and the Open Puppy began at 8:00 with Victor Mazza, Jr., and Harry Tinsman making the decision in that stake. All of these men are well-known in New Jersey bird dog circles as able judges and outstanding amateur handlers. In addition, all of them are accomplished horsemen and little, if anything, escaped from the scope of their observation. They were courteous, but direct, with all handlers, made several precise judgments under most difficult conditions and their decisions were well-received. It must be said that it took four real bird dog men to ride the first four or five braces Saturday morning in the prevailing weather conditions.

The Open All-age was run up to and across the Ommaney Tower Ridge and then swung towards the kennels. The next brace ran the course in reverse back to the clubhouse. When the last dog was picked up and the results announced, it was no surprise when Tondee's Sandy Valley Duke, handled by his owner, Steve Tardy, was announced the winner. This spring Duke has been just about invincible and has won three more All-age stakes subsequent to this stake. His birdwork was impeccable, his range more than adequate and he handled like a glove.

Duke's reputation as a stud dog is also coming to the fore. The blue ribbon in the Open Puppy was awarded to his daughter, Sandy Valley Duke's Daisy, ably handled by her owner, Bill Ullery.

**Sandy Valley Duke's Daisy**

Two pups sired by the well-known Yaucher's Ra-Pa-Lu, Sky's Cinnamon-Lu of Brookside and Sky's Ra-Pa-Lu, both handled by Howard Tutton, were placed second and third respectively.

The Amateur Gun Dog and Open Derby broke away at 7:00 a.m. Sunday. The weather had improved considerably over night and Sunday turned into a clear, sunny day. Briarpatch's Doctor Zachery, handled by Jack Cash, won the Amateur Gun Dog and, as a result, picked up quite a bit of hardware; the first place trophy, the Members Trophy for the dog of a member placed highest in the trial and a leg on the Alan Stuyvesant Memorial Trophy given to the winner of this stake at each of this club's trials. Jack went home happy.

Holly Mist of Aldwin, capably handled by the veteran professional, Phil Morehouse, captured the Open Derby with a good forward race and very mannerly bird work for a Derby. This is a derby that has a lot of promise.

It takes a lot of time, effort and cooperation to run a trial of this dimension over two days and I would like to thank all of my committee for their assistance.

On Saturday evening, Terry Stankiewicz and the ladies of the club performed admirably hosting a fine cocktail party and a delicious buffet in the clubhouse. It was a splendid event.

## SPRING TRIAL

by William Walsh

The first licensed trial of the Del-Val Brittany Club was held on the Pennsylvania State Game Land No. 182 at Kutztown, Pa. It began promptly at 7:00 a.m. on a cloudy, rain-spattered Sunday, May 14th. The Puppy and All-age were run on Saturday and the Derby and Amateur Gun Dog on Sunday.

Since the course would only accommodate single stakes, the high degree of efficiency displayed by the field trial committee and judges was greatly appreciated by all the participants; the end result being a rapid moving, enjoyable event.

The grounds, when selected in January, were adequate for a single course trial. However, last minute problems with the State Game Commission and the plowing and planting of a number of fields by a local farmer made it necessary to alter the course the day before the trial. This resulted in an extremely tight back course and short puppy and derby courses.

One hundred and two dogs participated with representation from ten different states. We were privileged to have among the participants, the President of the ABC, Mr. Lloyd Conable, and his wife, Ella (ABC Treasurer); Mr. Ronald Stevenson, Second Vice-President; and Mr. Thad Cwik, past President of the ABC who judged the Amateur Gun Dog and Derby stakes.

The winners in their respective stakes had unique performances which unan-

imously won them their placements. Skyview's Marty High, owned and handled by Jean Bovich, won the Open Puppy with a display of classic run and several good finds; while Steve Tardy's Tondee's Sandy Valley Duke accounted for the All-age win by showing his usual brilliant race and precise bird work. The Derby was won by Ferdie of Buttonwood Glen, owned and handled by Bill Walsh, with a consistently forward run and very stylish and steady point. Suzabob's Seminole Sadie, owned and handled by Bob Young, walked off with top honors in the Amateur stake after an enthusiastic run, an impressive stop to flush on the back course, and three good, clear finds in the bird field.

Our congratulations to all the winners and our thanks to the judges and other participants. We hope to see you all in the fall at our new grounds.

## **INTERNATIONAL BRITTANY OPEN CHAMPIONSHIP**

September 25 and 27, 1972

S'NO FUN PRESERVE, EVANS MILLS, NEW YORK

Judges:

David Fletcher, Michigan (Reporter)  
Claude Crawford, Sr., Vestal, New York

This Championship seeks to glorify the class Brittany All-age dog—the one which will be able to improve the breed—a dog which personifies class. The winner must show that he has sufficient field experience, such that he is familiar with the habits of game and versed in finding birds with boldness, intelligence, and style. His interest should be totally directed towards finding birds and his pattern in this pursuit not be discouraged by distant objectives or influenced by easy going. His bird handling should be a breath-taking experience—quality placed ahead of quantity.

This stake requires a wide ranging dog but one whose race is consistent with the course objectives. The winner should show determination and endurance to the point that his pace is consistent throughout his hour performance. He should show independence with reasonable handler contact. He is expected to back if the opportunity presents itself.

Horseback handling is preferred, however it is not required. The horse is a means of conveyance and is intended to be used to facilitate showing this dog at his best.

(Note—For clarification purposes the range of a Brittany All-age should be comparable to the horseback shooting dog but with more independence).

## SPRING TRIAL

by Bill Cartmell

The International Brittany Club had its spring trial at S'No Fun, Evans Mills, N.Y., May 20-21. It's always a pleasure to return to the north country, to renew old friendships, and of course to run at S'No Fun.

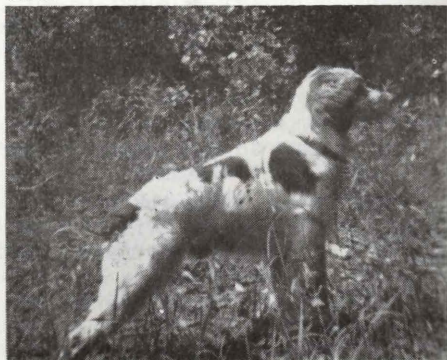

The Open All-age was won by Tondee's Sandy Valley Duke. He had four excellent finds and an impressive forward race. Dusty of Lakeview had one find and a fair race. Mr. Who-He was a bird dog, he had five finds and really no chance to run. Moesgards Dandy's Rocky was declared winner of the Amateur Shooting Dog stake. Rocky was lost shortly after the breakaway and at the end of the brace was found on point right where he was lost.

Sentry's Trojan ran an excellent race, a little too big for these grounds, but handled like a glove and was declared winner of the Puppy stake. Tramp ran a very good mature race but was not in the same class. S'No Fun Oklahoma Rigel started slow but warmed to the task and finished nicely. Tondee's Sandy Valley Duke came back from his earlier win and also won the Restricted Shooting Dog stake. He had four finds, a back, and an excellent race. Penny ran possibly the outstanding race of the day, had three good finds, and then the bottom fell out.

The Open Shooting Dog stake was won in impressive fashion by Mr. South Dakota. He ran to the limits but handled very well, had a good find, and a non-productive on a known bird. S'No Fun Ann made two good casts, one at the beginning and one at the end. However, in the middle, she had about five finds and a non-productive. Most of these finds were very unusual for example one was on a dead chukar, and another on a chuckar sitting on a nest with an egg in it. Possibly the outstanding race was run by Chip Britt Jill, however she had her downfall. Tramp ran a forward big race, handled easily, and capped it with one find and was declared winner of the Open Derby. His bracemate, Solo Pepperdust, was the second place dog. Pepperdust had a pleasing race and two

finds. Lindel's Mack had six game contacts but his race was not as good as the others.

Much thanks go to the professionals Tom Getler of New Jersey and George Bailie of Quebec for supporting our trial.

# Illinois

## SPRING TRIAL

by Dave Kenney

The Illinois Club varied its usual spring program in order to hold its regional trial in conjunction with the ABC Pheasant Classic, which it hosted during the last three days in March at the Green River grounds near Ohio, Illinois. In the regional trial, held on April 1 and 2, Easter week-end, the stake winners were the well-known dual champion Mar-ko Valkerie, owned by Dr. Adolph Utzinger and handled by Loyd Budd, in the Open All-age; Royal Happy of M. J., owned by Duane Warden and also handled by Loyd, in the Open Derby; Ko Ko Bingo Marste, owned and handled by Steve Kavajec, in the Open Puppy; and that old reliable campaigner Hi-Spirit Ladie, owned and handled by Darrell Gaynor, in the Amateur All-age. Lad and Darrell took home the Paul Bone Memorial trophy, offered to the winner of the Amateur stake, for the second consecutive year. Last year at Crab Orchard this winning twosome proved they could do it on wild bobwhite, and repeated this spring on pheasants. Truly a versatile pair. Other winners are listed below.

There had been much snow for the Classic, and it lingered on for the regional trial. Perhaps that tended to make the bird work difficult, for in the All-age stake it was at a premium. And

that was surprising, for on the same courses during the Classic the birds had been pointed and moved in adequate numbers. Perhaps by the fourth day of riding the courses three times each day the birds had been pushed back off the areas usually hunted. Even in the Amateur stake, run on planted pheasants, bird finding seemed very difficult. Perhaps the snow which remained on the ground was disturbing the scenting.

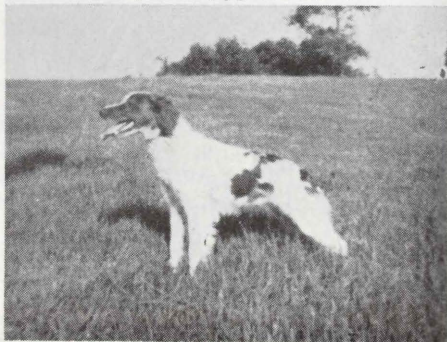

The Puppy entry was quite large, as spring Puppy stakes tend to be, and a number of good performances were seen. Unfortunately not all of them could be rewarded with placements. These good juveniles promise some exciting Derby stakes next fall.

The emphasis in this trial was on having a good time. The clubhouse was a popular center both days, with coffee and doughnuts and much good conversation available. Lunch was enjoyed at the nearby Rogers' Hunting Club. Even though personnel of the Illinois Club had worked very hard all week in hosting the Classic, they kept their good humor and did their best to see that everyone present enjoyed the trial. Especially to be commended for their good efforts are Hazel Bone, IRBC president; Ed Struhs, vice-president and field trial chairman; Harry Wirth, field trial secretary, and Bud Moore. Wayne Morss drove the dog wagon and Darrell Gaynor was generally helpful. Only the work of such dedicated persons as these makes field trialing possible.

**Ko Ko Bingo Marste**

**Royal Happy of M. J.**

At dinner on Saturday night at the Princeton Elks Club the Illinois Club felt especially honored to have ABC President Lloyd Conable, and ABC Treasurer Ella Conable in attendance. Lloyd made an especially interesting talk to us about some of the experiences he and Ella have had as the top brass of the ABC. We were happy they could be with us on this occasion. We were also pleased that Greg and Connie Henry had come a great distance to our trial, from their home in Reading, Pa. Other members and friends in attendance were too numerous to mention, but the presence of all of them was appreciated.

Altogether it was a good week-end, full of good dogs, good times, and good friends. We hope for many more like it.

# Greater Milwaukee

## SPRING TRIAL

by Jim Kriznar

The Greater Milwaukee Club held its biggest and probably the best trial in its history at the Bong Field Trial Grounds near Milwaukee on April 22 and 23. There was a total of 131 entries and a good mixture of professional and amateur handlers. The trial was well organized and smooth running which enables us to run a larger number of dogs without any real difficulty. We would like to thank all the hard workers of the club who made this all possible.

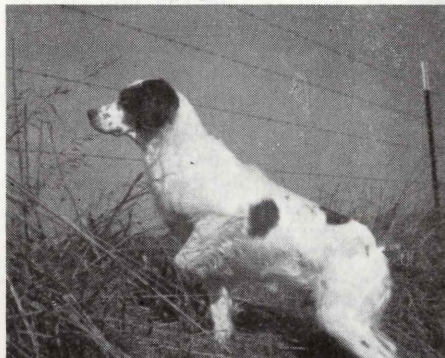

A cold wind and the threat of rain on Saturday discouraged many from watching the All-age compete, but the hearty onlookers were certainly rewarded with some terrific bird work. Most of the dogs found birds and most handled them exceptionally well. The judges had little trouble finding dogs to place. The winning dog, Coveymoor's Bomarc, had a very enthusiastic run, but was always under control despite his great range. He topped off his great run with two finds that were handled beautifully. This win was the big one for Mark and surely made his owner, Al Langdon, very proud for he gained the highly coveted title of Dual Champion here. This is the second trial in a row that a dog made his dual title at our trial; last fall Kent Lipsey did it with Jacques of Connie.

Second place was awarded to Maxie as a result of his good wide race and one nice find and a back. Third place was Tygo and fourth was Pistol. I might add that both all-age judges expressed their displeasure at handlers using excessive noise on the course, something that most of us would like to see reduced.

Brittany people around Milwaukee are still talking about the puppy stake as the most outstanding stake they have seen in this area. Many say that the winner, Dualite Mike, is the best pup they have ever seen. The judges were very impressed with the quality of the puppy stake, not only the placed dogs, but many of the dogs that did not place.

The puppy winners also made a very good showing in the Derby stake. Dualite had the widest run of all the derby

dogs, but his bird work did not quite measure up to that of Homer. Homer's run was very good and was topped off with two very classy finds for a derby dog and was awarded first place. Dualite was awarded second. Sam's Chips Britt, another Holman dog, earned third place. A local favorite, Ranger, was named to fourth place.

**Fld. Ch. Cox's Maxie Schultz**

The Amateur stake is often considered to be an easier or secondary stake, but our stake could have been called the "Parade of Champions." All the placed dogs were field trial champions—one, a Dual Champion. Darrell Gaynor hit us with his famous one-two punch. Pistol showed us just about everything we could expect in a Brittany. He had a beautiful run with little handling, but he was always under control. His bird work was tops; he handled four birds without a flaw. Darrell's other champion Lad took fourth place. Second and third went to two consistent winners, Jacques of Connie and Tyone de Malibeu.

We hope that our fall trial will be just as good with the same people with the same dogs, but perhaps some new winners.

## SPRING TRIAL

by Jim Fry

In very simple words, "Thanks to All." We feel we had a very successful trial with 140 dogs competing for top honors in four stakes. Needless to say the competition was very tough, and unfortunately everyone couldn't be declared a winner.

On Saturday morning we were able to start the Open All-age and Puppy stakes under fair skies with extremely wet grounds. Everything progressed smoothly. Through the cooperation of the entrants we were able to finish the 30 dog puppy stake at about 3:00 p.m. Winners, which were announced at the banquet on Saturday evening, were Lady, handled by Rick Smith; second was Durango, handled by Walt Chapman; Roman Nose Scout was third, handled by Lyle Johnson; fourth place was awarded to Timber Marquis de Colorado, also handled by Lyle.

The Derby stake started immediately following the finish of the Puppy stake and by Saturday evening six braces were completed and the Open All-age was through the 19th brace. Our weather, by the way, which has been variable at each of our last four trials, was no different this time. Clouds had gathered during Saturday and we experienced a few drops of moisture and it looked like more was on the way.

Sunday came with a cloudy sky and more water standing in the holes, but luckily none was falling. The Derby and All-age events continued and we started the Amateur Gun Dog. Again, thanks to everyone, the running of the braces in the three stakes progressed smoothly, even though there were occasional conflicts with handlers and dogs having to move between three courses.

At about 1:00 p.m. the All-age completed, at 2:00 p.m. the Derby finished and the Amateur was over about 3:00 p.m. Placements were announced, with the Derby winner being a dog that is also being seen in the All-age stakes, Perry's Rustic Prince, handled by Ed Wild.

In the Open All-age, Way Kan Fritts, handled by Lyle, was declared the win-

ner. Other placements were Air Cargo de Britt, handled by Loyd Budd with second spot. Third was Christy's Feather Duster, handled by Lyle. Zollar's Zipper, handled by Jim Holman, was fourth. In the Amateur Gun Dog, Francis Clasen brought Char-Lee O'Dee through for a first place and Happy Alpine's Jig-A-Rum for a second. Air Cargo de Britt, handled by Jack Higgins, was awarded the third place trophy and Fisty Miss Kaer was fourth.

**Timber's Marquis de Colorado**

And our late weather—it began clearing late on Sunday and believe it or not the skies were clear on Monday with 80 degree temperature. Anyway, it was fun and we enjoyed being your host. To each and everyone, entrants, helpers and judges, we appreciated your being with us; thanks and please come again.

One accident marred an otherwise perfect trial and we are sincerely sorry. I checked on Monday with Terry and found that Shank was doing fair. He appeared to only have suffered some severe bruises and we all hope that the ordeal doesn't leave Shank with any permanent damage.

You all have a fun time this summer and we hope to see all of you this fall. And if any of you happen to pass through Omaha this summer, I am located just a few minutes off of I-80 and would be most happy to pour you a large glass of iced tea, lemonade or what ever.

# Texas Open Championship

by Bob Moore

The inaugural running of the Texas Open Brittany Championship was held February 21-22 on the bird seeded field trial grounds of the Panhandle National Grasslands just north of Decatur, Texas. Way Kan Fritts, owned by Ron Stevenson of Concord, N.H., and handled by Lyle Johnson of Goddard, Ks., captured the title.

Runner-up honors were taken by Mike Bazooka of Tejas, owned by Bob Richards of Houston, and handled by Rick Smith of Edmond, Okla.

This titular event is now well established nationally and should continue to grow in prestige and popularity. The Texas Open Brittany Championship Association petitioned for recognition of the Championship and after supporting the Association through two successful "Classics," held in 1970-71, was granted the distinctive title.

Bill Norvell, secretary of the Association, spearheaded much of the operations of the Championship and certainly deserves a grand applause for his efforts. The entire event ran with the smoothness of a well oiled machine. Leo Gales, a field trial committeeman, could be seen as Norvell's man Friday and was on hand throughout the running, helping out with keeping the courses furnished with pen raised quail, handling the dog wagon and doing much of the marshalling, just to mention a few of his duties that were handled with perfection.

It was a pleasure for this scribe to share the judging assignment with Earl Clevinger of Mesquite, Texas, and James Faulkner, also of Texas.

The Championship got underway on schedule at 8 a.m. on Monday with clear skies, gusting winds and, before the day was over, the temps soared in the high 20's. Since very little rain has been received in the Grasslands in several months, conditions were quite dusty dry and a few of the good watering holes were dry. There's an old saying that only a fool will try to predict Texas weather and Tuesday was quite a different story as the skies were cloudy and

a brisk breeze switched from the north making those heavy coats necessary and temperatures hung below 40 degrees.

Even with such arid conditions existing as well as unfavorable weather, bird work was in abundance with 15 of the 21 starters having one or more finds.

The winner and runnerup with handlers

## THE WINNERS AND OTHERS

Way Kan Fritts ran in the concluding brace of the first day, braced with Pacolet Cheyenne Sam. The breakaway was at 5:12 p.m. with both dogs going straight-a-way at full speed with one casting left and the other right. Both are capable of eye-catching performances and this race was just that. Fritts found birds at 16 minutes and handled them beautifully but came on point at 23 minutes and no game was raised. Sam had been giving a good account of himself and pointed in a heavy thicket near the lake. No one saw birds get up but handler shot and brought the dog out. Meantime Fritts was really performing for the other two judges and went on a wide cast reaching to good habitat and made a beautiful find at 48 minutes. He finished strongly and was looking for more birds at pick-up.

The runner-up, Mike Bazooka of Tejas, ran in the first brace of the trial coupled with Char-Lee O'Dee. Mike broke away to the ridge at the left while Charlie took the treeline at the right. Charlie pointed at 11 minutes, the flush was made and Charlie held steady for the shot. Mike found game at 16 minutes and was also steady. Charlie pointed at 30 minutes but no birds were

raised. He repeated at 50 minutes and was picked up. Mike seemed to be sweeping the course and was credited with a stop-to-flush at 35 minutes. He stacked up on birds at 59 minutes and handled them with experience.

Among the better races were those laid down by Gideon of Richmond and Rufus Rastus Johnson Brown. Unfortunately Gideon disappeared and was ruled out of judgment. Fluke de Britt had his running shoes on, was a little hard to handle at times, but finished in good shape. Fisty Miss Kaer and Brandy's Bullet were an excellent brace. They ran well but had trouble pinning difficult birds.

**Champion—Way Kan Fritts**, by Way Kan Jeff ex Way Kan Mandy. Owner, Ronald Stevenson; handler, Lyle Johnson.

**Runner-up—Mike Bazooka** of Tejas, by Holliday Britt's Bazooka ex Tip Top Cinderella. Owner, Bob Richardson; handler, Rick Smith.

How's this for an oddball accident. A duck decided to light on some power lines in Berlin. He was taking home a dog leash, presumably to help hold his nest together. The dragging wash short circuited the power line and blacked out several homes in the area.

# Idaho

## SPRING TRIAL

The grounds at Idaho were in prime condition for the running of the last trial in the west coast circuit. Recent rains had laid the dust that had plagued previous events. A good entry, a good group of workers and fine companionship made for a top trial.

That the Idaho Club is on its way up was evidenced by the number of willing workers who helped with the trial. In addition to the old regulars, Bob Hall, Jim Gillespie, Oscar McCormick, Lynn Fackrell and Neal Lazenby the faces of Dave Walker, Jim Kefauver, Dale Leishman and Sam Kerr were much in evidence.

Bob Hall suffered a bad fall while running his pup and had to be rushed to the hospital. Friends will be glad to hear he suffered no serious injury.

Highlight of the puppy stake was the winning of the Oppie's Dualite Mike et Pierre, who had many seconds but never a first before. Both owners went into orbit. A close second was Ricky's Smiling Ranger, who also had a bunch of seconds but no first. Wilson and Beulah took it all with a smile, good sports that they are.

Dan Buster had a smile on his face from the time he picked up Hedgerow Country Torchy that presaged his knowing something no one else knew. He knew he had the stake won and the judges agreed. This, coupled with a third place puppy ribbon on his other youngster, made it a worthwhile trip for Dan. It was a hot derby and the performances of the other three place dogs were enough to have won other trials.

In the Open All-age it was Taro's Chibby all the way. His performance was so outstanding that lack of it would have meant withholding first. Other dogs with suitable races for an all-age win all goofed up on their birds.

The Amateur was a weak stake both in numbers and in performances. Ejner Lund's two dogs were undoubtedly the only two that deserved placements, they both having their usual creditable work.

The Open Gun Dog was a shoot-to-kill

for all breeds. Evergray's Terry hung on the far edges of gun dog range though in this light cover and easy visibility one would not want a gun dog too close. His birdwork was the highlight of the trial. His find was made far, far out and he stood while bird was observed to leave his stand. Handler finally reached him, made a quick stab to locate bird and sent the dog on. Terry roaded directly to the bird working it as it went, the wrong way of the wind. He pinned it positively and exactly, a beautiful piece of work.

These are the field trial placements for 1971. ‡ means Bench Champion, § means Field Champion and \* stands for a Dual Champion. The first column is the dog's name, (in adult dogs, his number of previous wins), his owner (handler). Next are his sire and dam. The last column has S for spring and F for fall. This is followed by the placement, the club (number of entries in stake). Dogs are listed in the regions in which they were principally campaigned. Derby dogs with All-age placements are listed in the All-age charts. Spring results for 1972 are not included.
